

Alarm Integrators

The AIM Alarm Integrators provide for 8 or 16 inputs to energise one common relay with volt free changeover contacts.

The alarm integrators can be supplied for 24V AC/DC inputs or 240V. Other operating voltages are available on request.

For remote audible alarm and indication use with the Titan Products RMP Alarm Panels.

Specification

Input:	24V AC / DC or 240V AC (specify requirements)
Output:	Volt free 5A @ 240V AC
Power Consumption:	30mA max
LED Indication:	Relay energised
Operating Temperature:	-10 to + 40°C
Terminals:	1.0mm recommended 2.5mm max
Dimensions:	82mm high, 80mm wide, 50mm deep
Mounting:	DIN Rail
Country of Origin:	UK
Product Codes:	See below

Features

- Inputs 24V AC/DC or 240V AC
- Hazard cover on 240V versions
- Common volt free changeover relay
- LED relay status indication
- DIN Rail mounting

Product Codes

Product Code	Product Type
AIM8/24	8 x 24V inputs
AIM16/24	16 x 24V inputs
AIM8/240	8 x 240V inputs
AIM16/240	16 x 240V inputs

Other voltages available on request
